

Not every fluid systems company has the experience and resources to collaborate, then create solutions. We do.

Extraordinary quality is our heritage and it continues to define us to today.

Over 65 years in the power industry and meeting key standards, including ASME B31.1 and B16.34.

Swagelok

## CONNECT

From tube fittings to quick connects, Swagelok connects your fluid systems with proven performance and reliability.

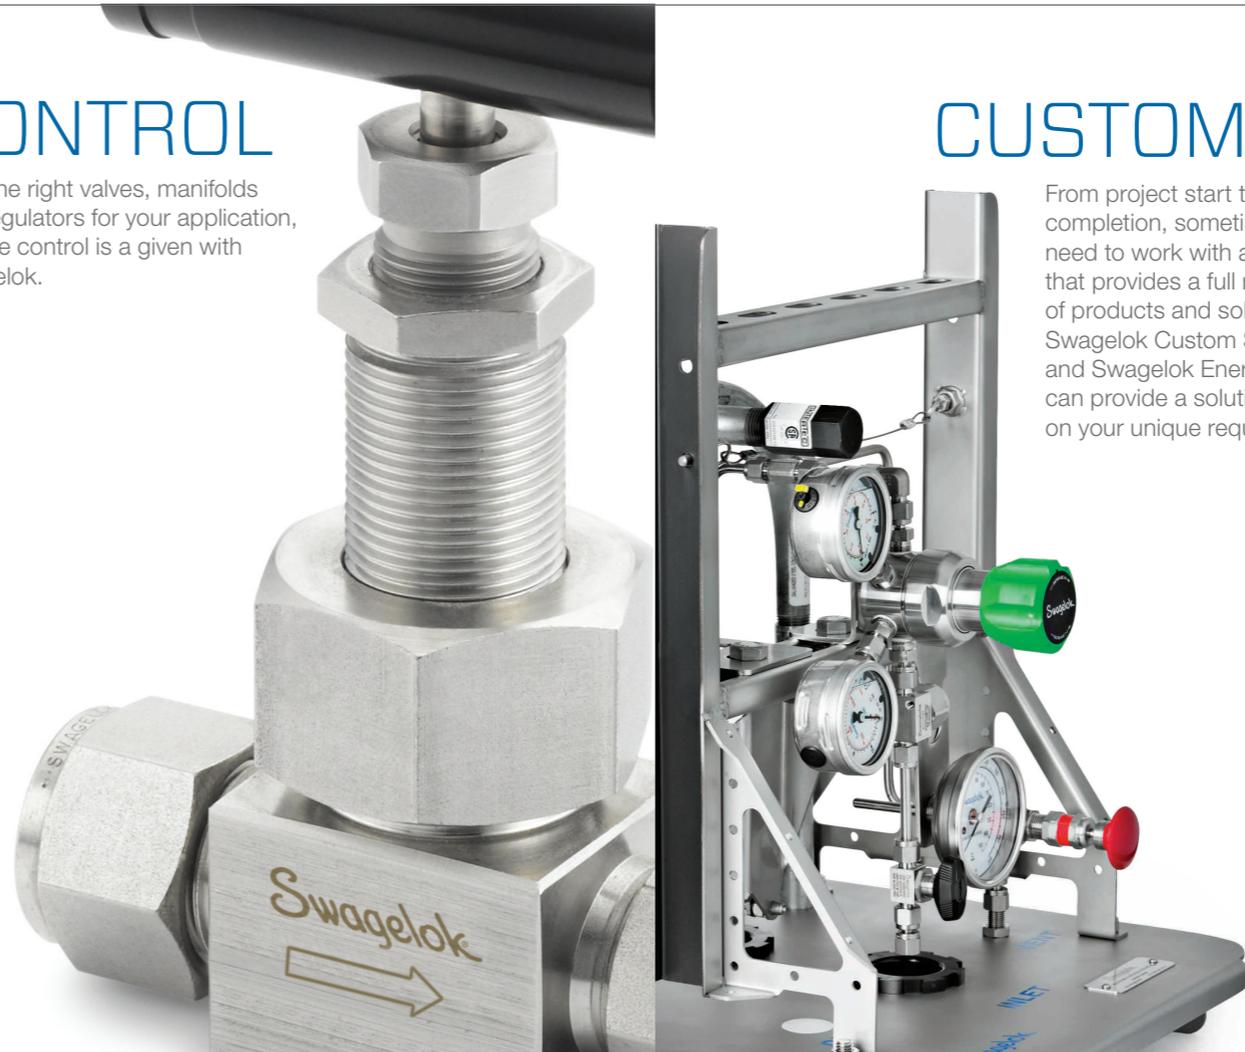

## CONVEY

Whatever your application, Swagelok has the small-bore and flexible tubing and hoses to form the backbone of your fluid delivery system.

## CONTROL

With the right valves, manifolds and regulators for your application, precise control is a given with Swagelok.

## CUSTOMIZE

From project start to completion, sometimes you need to work with a supplier that provides a full range of products and solutions. Swagelok Custom Solutions and Swagelok Energy Advisers can provide a solution based on your unique requirements.

## GLOBAL AND LOCAL

We're a world-class manufacturer with global representation and more than 200 local sales and service centers—so expertise and support are always close at hand—wherever in the world you are.
